

WHY CANNON:

- Uncover inefficiencies
- Reduce spend
- Manage usage
- Improve IT cost transparency
- Maintain control over IT budget

PROJECT MANAGEMENT as a SERVICE (PMaaS)

Today, with the increased commoditization of IT and a shift to the “as a Service” approach to cutting costs and driving efficiencies, Project Management as a Service (PMaaS) has become critical to the success of a well-maintained IT infrastructure. More and more businesses are waking up to the idea that highly efficient project management practices support business objectives, while poorly managed projects lead to wasted money, wasted resources and wasted time.

According to a recent Project Management Institute survey,* “Organizations that invest in proven project management practices waste 28 times less money because more of their strategic initiatives are completed successfully.” With Cannon Group’s Project Management as a Service, you’ll save all-around with IT projects that are delivered on time and on budget, while aligning to your business’s strategic objectives. As seasoned IT professionals, we can map the right project experts to your exact project needs so you get the outcome you desire.

Project management *your way*:

- **20+ Years Industry Experience**
Our elite team of highly experienced project managers combines a breadth of knowledge across all IT endeavors with proven project management practices that support business objectives.
- **Quick Turnaround**
Our team is ready to begin meeting your project management needs in two weeks or less.
- **Behind-the-Scenes Support**
With Cannon PMaaS, you get more than a project manager, you get a team of highly skilled technical staff, help desk support, sourcing resources and access to analyst and consultative services.
- **Flexible Pricing**
We offer flexible pricing options to meet your accounting needs and help reduce budgetary burdens.

CUSTOMER SUCCESS

CANNON GROUP ENSURES SD-WAN ROLL-OUT STAYS ON BUDGET AND ON SCHEDULE

CHALLENGE:

A global materials company was planning an international SD-WAN rollout. Due to the immediacy of the project start and the lack of experienced staff, the company approached Cannon Group to help manage the process.

SOLUTION:

In less than three weeks' time from the initial request, Cannon filled the need with a dedicated PMP-certified project manager with specialized knowledge, backed by a team of Cannon SD-WAN experts who offered support behind the scenes. Upon logistics set-up, the project manager was inserted into the project and immediately began coordinating the delivery and activation of the SD-WAN equipment and service. Additionally, project plans were developed and coordinated with the multiple IT staffs throughout the world to provide an efficient delivery of the service.

OUTCOME:

Cannon Group's continued involvement has kept the project on schedule and on budget, while allowing the company to focus their internal resources on running the business.
