TRANSITION MANAGEMENT

Effective project management has become critical to the success of a well-maintained IT infrastructure. More and more businesses are waking up to the idea that highly efficient project management practices support business objectives, while poorly managed projects lead to wasted money, resources and time.

Organizations often struggle when it comes to managing complex IT transitions. Projects of this nature are not for the faint of heart; they typically require a deep knowledge of advanced technology concepts to ensure a smooth transition that delivers minimal disruption to the organization, the staff and the budget. That's where Cannon Group comes in.

Cannon Group's seasoned project managers have been helping clients manage complex transitions and conversions for more than a decade. Our team can help you manage:

- Technology migrations
- Implementations of new systems, solutions or services
- Technology upgrades
- IT-related activities associated with an acquisition or divestiture
- Implementations of new systems, solutions or services

What makes Cannon Group different?

We are your project manager, not the provider's. This allows you to keep your staff on other projects that impact the business. Our project managers' expertise spans a wide range of projects, including:

- ✓ Vendor conversions
- ✓ Circuit type changes, such as ethernet
- ✓ Workstations
- ✓ Printer solutions
- ✓ Global transitions
- ✓ Microsoft Teams PSTN Calling conversions
